I am happy because the  
case is close.

It is an interesting  
story. Keep it up, Hanson!

One day, Detective Hanson,  
Kenny Li and Tommy were in  
Dicky's home because Dicky  
lost his diamond computer.

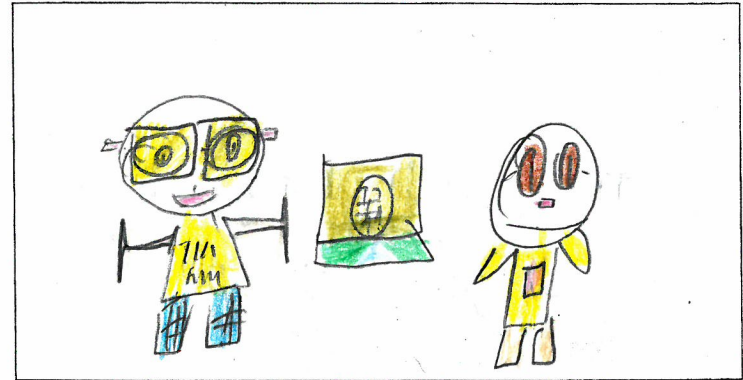

They looked for Dicky's diamond  
computer. Dicky saw a big  
footprint on the floor. He thought  
it belonged to the thief.

The thief was fat and short with curly hair.

He was in a spotted blouse, checked trousers and sunglasses.

Next, Detective Hanson and Kenny  
found the thief in Mong Kok.  
They caught the thief. Tommy  
said, 'I am sorry!'

Finally, Tommy gave the diamond  
computer to Dicky. Detective  
Hanson and Kenny said, 'case closed!'
